

Lowering Costs Through Unique Solutions

AMERIGLOBE Baffle Bag

If your product is light or unstable AmeriGlobe's baffle bag can lower your costs by improving your stability. The baffle bag's square or rectangular footprint reduces shipping and warehousing costs by more fully utilizing the available floor space.

Our baffle design has several advantages over the standard baffle design. Some baffle designs make filling the corners difficult, but our patented baffle pattern allows the product to flow easily into the corners without sacrificing any integrity in the corner. To reduce your handling costs AmeriGlobe's design features stand open loops. This makes driving into the loops a one operator job, saving you money.

- Reduced Shipping Costs
- Improved Stability
- Reduced Warehouse Costs

Most companies claim to offer better bag prices. AmeriGlobe's systematic approach lets us find ways to save you money. Call AmeriGlobe today so we can work to find the best options for you.
