

# Ex-Pallet™

**AMERIGLOBE**  
Lowering Cost Through Unique Solutions

## AmeriGlobe's Ex-Pallet™

The Ex-Pallet is not only easy to use, it will save your company money. There is no need to buy hardwood pallets or to pay for heating or fumigation of pallets. The Ex-Pallet already meets international shipping standards.

The Ex-Pallet gives you the flexibility to have a palletless bag when needed without having to decide in advance. Use a wood pallet when you need or the Ex-Pallet, your choice at the time of packaging or any time after.

### Easy Handling:

This new system makes retrieving the top bag very easy since forklift entry points remain clear at all times. The sleeve portion of the Ex-Pallet keeps the bags from migrating into the channel.

**Ex-Pallet**  
Open, Protected Entry

**Standard Pallet**  
Unprotected Entry,  
Potential bag Damage

### Warehousing:

Pallets take up an inordinate amount of space. They frequently cause storage problems. The Ex-Pallet takes a fraction of the space. Each channel has a lower profile than a pallet and a pair of them are less than half the width of a pallet. What would you do with the extra space.

### Product Protection:

Many companies want more protection for their product than just the fabric of the sleeve and the bottom of the bulk bag. For these companies we have added a pad to the sleeve. This pad keeps the bottom of the bag an inch or more from the ground. The Ex-Pallet itself acts as a diaper flap protecting the discharge of the bag.

**Ex-Pallet with BioPad**

- Lower Pallet Weight
- Lower Shipping Costs
- Lower Warehouse Costs
- Recyclable
- No Bugs or Mold
- No Broken Pallets
- Impervious to Moisture Damage
- Meets ISPM rules
- No Fumigation/Heat Treating

The Ex-Pallet meets international shipping standards and requires no special adjustments to the bulk bag. The Ex-Pallet's lower weight helps reduce your shipping costs whether you are shipping domestically or overseas.

The Ex-Pallet offers many savings for your company. Contact AmeriGlobe today and schedule a trial with our Solutions Specialists.
