

Lowering Costs Through Unique Solutions

AMERIGLOBE

Stacker

The Stacker can reduce your warehouse costs by improving the stability of filled bags allowing for safe double stacking.

In some cases it improves the stability enough to serve as a baffle bag replacement. Since the Stacker has no baffles you can even add the protection of a liner.

The Stacker design can also allow you to reduce your total inventory by consolidating similar specifications without sacrificing performance or stability.

- Reduced Freight Costs
- Reduced Freight Claims
- Improved Stability
- Reduced Need for Bracing
- Improved Arrival Condition
- Lower cost vs. Baffle Bags

Most companies claim to offer better bag prices. AmeriGlobe's systematic approach lets us find ways to save you more than just packaging dollars. Safely double stacking, replacing a baffle bag, or consolidating specifications, call AmeriGlobe today so we can work to find the best solutions for you.
