

Lowering Costs Through Unique Solutions

AMERIGLOBE

Free-Standing Drum Bag

Fiber drums are heavy, have a high warehouse cost, and waste shipping weight. AmeriGlobe's patent pending FreeStanding drum bags do not have any of those issues. Weighing about a pound, it is a real light weight package even though it holds the same volume as a drum. This freestanding flexible container can be filled without special equipment. Our drum bags are man portable. They can even be discharged by hand.

Since the FreeStanding drum bag is flexible, it can be collapsed when empty and palletized so that more than 200 fit in a four foot square footprint. There is no need for constant forklift traffic to keep your filling area supplied with drums. Just move one pallet of FreeStanding drum bags and you are set for the next 200+ fill cycles.

Since our bags are custom manufactured to your needs, you do not have to purchase an oversized containers. We make the drum bags the size you need each time.

- Reduced space
- Reduced cost
- Reduced labor cost
- Improved warehouse efficiency
- Reduced landfill cost
- Reduced freight cost
- No special fill equipment
- Sized to fit you product
- Better package

Most companies claim to offer better bag prices. AmeriGlobe's systematic approach lets us find ways to save you money. Our FreeStanding drum bag offers you warehouse and labor savings that can make a real difference in your bottom line. Call AmeriGlobe today so we can work to find the best options for you.
