

Lowering Costs Through Unique Solutions

AMERIGLOBE

FreePac

We lower your costs with packages like the FreePac that allow you to get more product in your trucks and overseas containers. The FreePac reduces the weight and space that your packaging wastes when you ship and lets you replace it with product. Since the FreePac meets international shipping regulations you do not have to worry about heat treating or fumigating pallets or having your load rejected at Customs.

The FreePac channels weigh about 4 pounds apiece, much lighter than a 30 pound pallet. The plastic channels take up less than 20% of the space of regular pallets. Since the whole package is plastic it is recyclable and not damaged by moisture.

- Reduced Shipping Costs
- Lower Warehousing Costs
- No Fumigation Charges
- No Heat Treating Charges
- Reduced Package Weight
- Recyclable
