

AmeriGlobe - Using Texene's Crohmiq Blue® Static Disappation Engineered Safe

Type D Safely:

Instead of only offering a low price, AmeriGlobe's systematic approach looks for the best possible solutions. We look internally and externally. Texene's Type D Crohmiq® fabrics are a great example. They offer unmatched protection when you need static control in your bulk bags.

Contact AmeriGlobe today, and let us find the best solutions for you.

Safest Type D Bag In the Market

AmeriGlobe partners with industry innovator Texene to bring you Crohmiq®, the world's leading static protective FIBC fabric. Developed with cutting-edge technology by Texene, Crohmiq® bulk bags deliver unparalleled safety and performance in static-sensitive environments. Our commitment to excellence is evident in every fiber of Crohmiq's® design, ensuring that your products are not only secure but also safeguarded against the hazards of electrostatic discharge. With Crohmiq®, we offer more than a product; we offer peace of mind, underpinned by Texene's legacy of fabric innovation and AmeriGlobe's dedication to cost saving solutions.

Benefits
