

EZ Loop™ - Engineered Pallet Free Eight-way entry using loop openings equal to the width of the bag

EZ Loop™:

Instead of only offering a low price, AmeriGlobe's systematic approach allows us to engineer savings throughout the bag's lifecycle. With AmeriGlobe's EZ Loop, you can reduce freight, inventory, and handling costs.

Contact AmeriGlobe today so we can work to find the best solutions for you.

Stability at a Lower Cost

Pallets are expensive, heavy, and require significant space to store and ship. With the EZ Loop it is easy to eliminate pallet costs.

Every pallet used reduces the amount of product you can ship by 40+ lbs. Given the cost of fuel today, wasting that weight is a freight loss no one should suffer through.

The patented design of the loops allows eight-way entry and strengthens the lift in the event that a loop is missed by the forklift.

To keep the bags stable for stacking, the EZ Loop bags incorporate the Stacker design, which uses the force of the product to maintain side wall tension after the bag is moved.

Benefits

- No Pallet Needed
- Reduced Shipping Costs
- Reduced Inventory Costs
- Easy Access to Lift Loops
- Loops Always Open
- Increased Stability
- More Attractive Arrival Condition

AmeriGlobe is not a bulk bag broker that offers no support. We are the largest bulk bag manufacturer in the United States. Our combination of US production and managed overseas production gives you safe, competitive pricing, while we work with you to show huge freight cost and system based savings.
